INTRODUCTION

The purpose of this bibliography is to provide assistance in location of information about foundations, government departments and granting agencies which give grants in Alberta and, more broadly, Canada; and how to access the sources of funding which have been identified.

The granting agencies considered are those which give grants in the broadly-defined fields of science and education, including such areas of interest as: arts & culture, wildlife and conservation, environment, museums, ethnic studies, architecture, Canadian studies, historic preservation, historic sites, educational institutions, art galleries, and libraries.

Those directories listed, then, are the ones which include granting agencies which offer funds for the above subject areas. Call numbers and locations have been given to provide easy access to these tools. Those without call numbers are not presently available in Alberta Government libraries or at University of Alberta library.

This bibliography has been divided into two sections: I) books and articles which give assistance in techniques of fund raising and writing grant proposals and II) directories and reference sources which provide assistance in locating potential sources of funding. An appendix includes sample entries from each of the reference sources listed in section II.

Canadian Directory to Foundations. Editors: Allan Arlett and Ingrid Van Rotterdam. 7th ed. Toronto: Canadian Centre for Philanthropy, 1987. xxxv, 245 p. ; 27 cm.

061.1 C16 1987 PAA REF

The Canadian Directory to Foundations provides information about family, corporate, community and special interest foundations which make awards in Canada. The Directory offers information on all types of grant programmes available to charitable organizations and, in some instances, to individuals. The foundations in the Directory are organized alphabetically under the family or corporate name of the foundation. Each foundation has a reference number listed to the left of the foundation name; this number is used for cross referencing in the indexes. Each foundation provides information on source of funds, year of establishment, purpose, interests, geographic scope, grant limitations, receipted gifts, total grants and number of grants along with the mailing address. There are four indexes: index of foundation names, index of individuals, index of geographic location, and index of field of interest.

The Canadian Directory to Foundations is also available on Philoscan, an on-line information retrieval service of the Canadian Centre for Philanthropy.

This index is divided into eight broad categories of activity. Approximately 493 foundation names are listed alphabetically in the index. The Canadian Index to Foundation Grants is produced from Philoscan, the computerized database on Canadian foundations.

HISTORICAL RESOURCES GRANT PROGRAMS

A comprehensive series of grant programs, administered by the Historical Resources Division, makes funds available for the preservation of Alberta's historical resources.

HISTORICAL PUBLICATIONS ASSISTANCE PROGRAM

Grants, available to municipalities or non-profit incorporated organizations, are designed to aid in printing or reprinting of a history book dealing with some aspect of Alberta's natural or human resources. The grant is intended to cover 10% of the printing costs and 50% of paid editorial fees, to a maximum of $5,000; but the amounts, as with the preceding grant, are subject to prorating if the volume of requests exceeds the budget. Three copies of the published work are required.

Application Deadline: January 31 and July 1

SPECIAL HISTORICAL PROJECT ASSISTANCE PROGRAM

The purpose of this program is to assist municipalities or non-profit incorporated organizations in carrying out historical projects, such as special historical conferences, special events which portray the past, and tape recordings of historical significance. The grant may be applied for in an amount of 50% of projects costs (exclusive of other government grants) to a maximum of $1,000. When the volume of applications exceeds the budget allocation, applications are then sent to the Historic Sites Board who will make recommendations to the Minister.

Application Deadline: August 31

PROVINCIAL HISTORIC RESOURCE ASSISTANCE PROGRAM

These are grants to aid in the restoration, preservation or protection of a site or building which has been officially designated by the Minister as a Provincial Historic Resource. This is a site which has major provincial significance. Owners are required to seek permission before changing them. Only the owner of the designated resource can apply for the grant.

There are two types of grants:

- The basis grant may be applied for on an annual basis in the amount of 50% of the total assessed property taxes to a maximum of $1,000.
